

# Clojure (& Clojurescript) 101

Chris Howe-Jones

20th Dec 2017

## Clojure 101

... and Clojurescript

## Who am I?

Name: Chris Howe-Jones [Technical Navigator]

Twitter: @agile\_geek

Github: <http://github.com/chrishowejones>

LinkedIn: <https://uk.linkedin.com/in/chrishowejones>

Organiser: London Clojurians, Clojure eXchange, ClojureBridge

Speaker: FP North East, Agile North East, London Clojurians, Dynamo Conference, West Midlands JUG, DefShef, Sunderland Uni

## What is Clojure?

It's a 'Lisp' that's hosted on various platforms.

- JVM
- Javascript (transpiled with full source map)
- CLR

## Simple Syntax

Everything in (parens) is a list...

- The first item in a list is a *function*.

- The first *item* in a list is a function.
- The *first* item in a list is a function.

### **More syntax...**

- And we are done!

### **Demo time...**
